

SUPERIOR PROTECTION, EFFICIENT WORKFLOW, COMPELLING DATA.

Parabit designs, fabricates and integrates enclosures and technologies that provide clients with the tools to more efficiently and effectively authenticate physical identities and manage facilities. Custom kiosk solutions provide comprehensive, enterprise-class visitor registration, notifications, tracking, reporting, as well as other features including automated interaction with dynamic data sources and integration with building access control systems.

Parabit Turnkey Solutions

Parabit Visitor Management Kiosks capture detailed information by scan of business cards, driver's licenses or passports, and based on specific requirements unique to each installation, efficiently manage visitor, vendor, contractor and employee access to facilities.

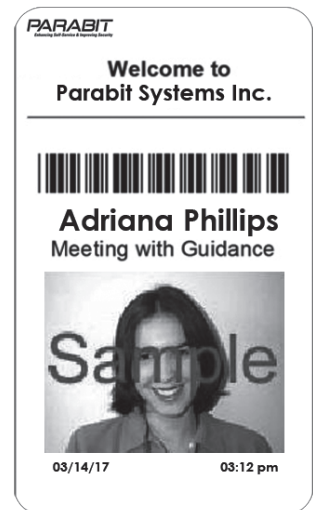

Parabit Kiosks and Displays are expertly designed and constructed, incorporate the highest quality peripherals, and integrate with a variety of software applications including RightCrowd, iLobby, StopWare, Quantum Secure, Easy Lobby, All Star ID, Splan, Building Intelligence, Fast Pass, and others.

Featuring:

- Visitor Pre-Registration
- Credential Verification
- Visitor Photo Capture
- Host Notification
- Self Expiring Badges
- Email/SMS Notifications
- Building Access Control Integration
- Automated Denied Party and Sex Offender Screening
- Corporate or Project Branding

Know Exactly Who Is In Your Building At All Times!

Proven Performance in Public Deployments

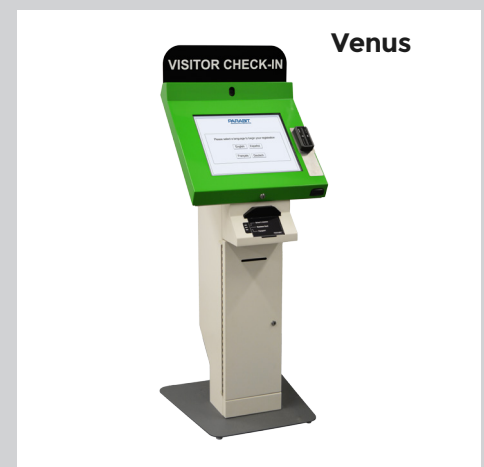

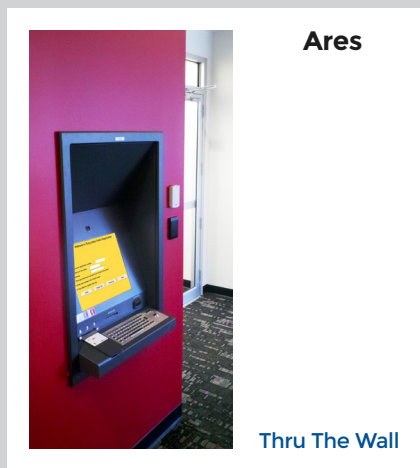

Built in our state-of-the-art fabrication center with highest grade materials, our expert team of designers and engineers ensure products are of exceptional quality – smart, reliable, durable and beautifully appointed to deliver branded messaging.

Features

- Multilingual Presentation
- Links to Existing Directories and Databases
- Automated Interaction with Dynamic Data Sources
- Watch List Alerts and VIP Notifications
- Unique Badging Categories – visitors, vendors, contractors
- Integrated Disclaimers, Agreements and Certification Requirements
- Mustering Capabilities
- Reporting and Audit Capabilities

Benefits

- Protected People and Premises
- Organizational and Regulatory Compliance
- Integrated Physical and Technical Security
- Access Control Integration
- Improved Productivity and Cost Efficiency
- Data Management and Reporting
- Enhanced User Experience
- Enterprise Scalability

Sample Peripheral Configurations

- Touch Screen - Landscape or Portrait
- Tablets - Portrait
- Camera
- Thermal Badge Printer
- Barcode Scanner
- Credential Scanner
- Proxy Card Reader
- Proxy Card Dispenser and Acceptor
- Biometrics
- Signature Pad
- Courtesy Telephone
- Vandal Resistant Keyboard
